Description

Nsw.t Bjt.j (King) in Ancient Egyptian: A Lesson in Paronymy and Leadership takes a fresh look into the meaning of the name Nsw.t Bjt.j (Nesut Bitii “King”) in the ancient ci.Kam (Egyptian) languages using the analytical tools of anthropological linguistics and comparative cultural anthropology. Its aim is to explicate from primary sources—and from related African languages and cultures—the methods that inspire the various conceptual and emblematic associations related to ancient Egyptian kingship in particular and African kingship in general. In addition, Nsw.t Bjt.j also explores the primary functions and duties of the African king (and queen) in an effort to develop a framework for creating effective leaders in the modern African world community.
